## 11 Rooming at the Haunted House

Cheryl Duggan

the characters here  
leave nothing to fear

...

werewolves that barely emit a hiss  
the cigarettes causing severe laryngitis

vampires you would never want to kiss  
because they have the worst case of gingivitis

skeletons never finding their bliss  
all bent out of shape from scolio-arthritis

...

just load up the hearse  
cuz this place is cursed
